

## Winter Meeting Release Notes

The following is a list of the features that will be available in the Winter Meetings Release on November 24, 2016. This release is the continuation of improvements to the AHMS system.

After logging into the AHMS system, the below notification box will appear summarizing the new items.

### November 24 Changes

**Team Dashboard:** New Filter, Event Type, was added.

**Player Dashboard:** The player's current Age was added.

**Improvements:** Club/Team Menu, ICD-9 (Diagnosis search), Hide Player Forms, and Field Type Default.

#### 1. Team Dashboard:

After the login page, the team dashboard will be displayed for your default team.

You will have a new filter named "Event Type" where you can filter your list by the type of open events (Injury, Illness and/or Preventive).

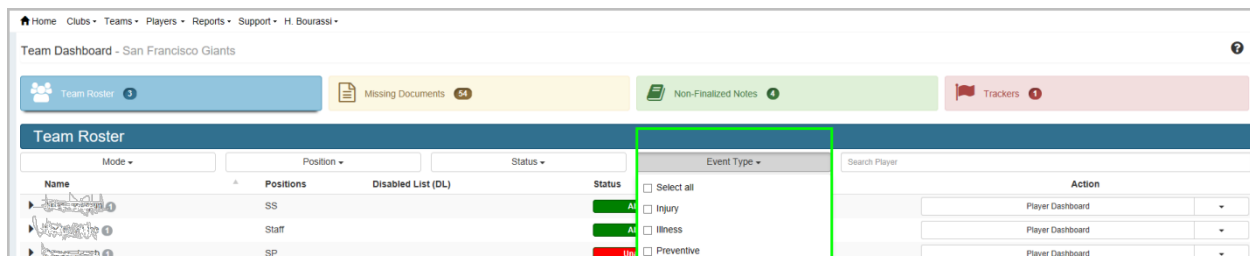

Figure 1: Event Type Filter

#### 2. Player Dashboard

On the Player Dashboard, to the right of the player's date of birth, his current age has been added.

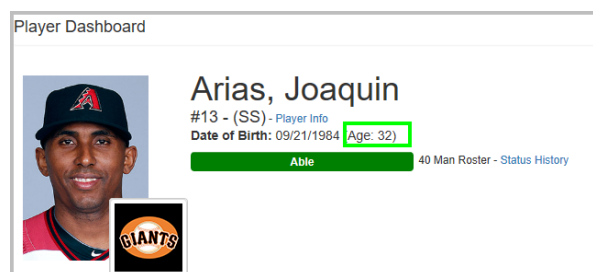

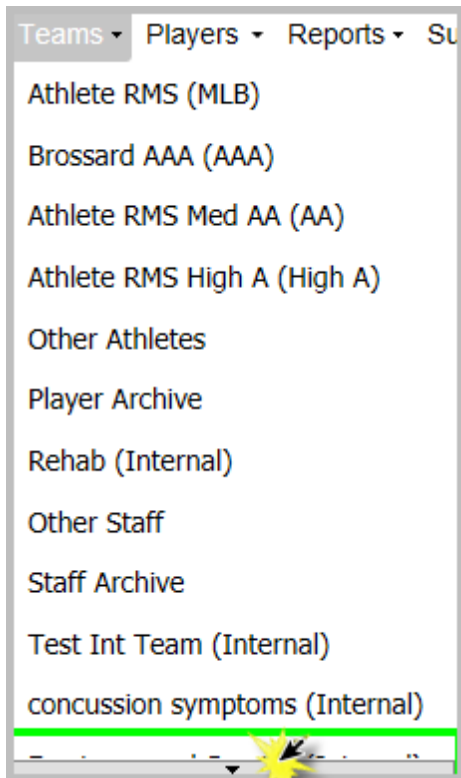

Figure 2: Player's current Age

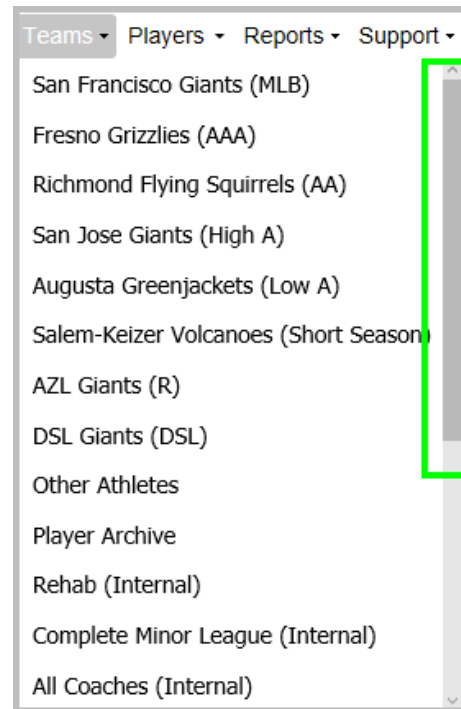

### 3. Club/Team Menu

On the Club Menu and the Team Menu, a scroll bar has been added to standardize the dropdown menus and to make navigating between clubs and teams easier.

Actual Team Menu:

## 4. Search Diagnosis

By default, the search for a diagnosis/ICD-9 code will search through the full list of ICD 9 codes instead of the most common injuries list. The user is still able to switch to the “most common injuries” list to do his search.

**Search Criteria**

Region:

Injury:

Description:

ICD9/SMDCS:

Search the list of most common injuries  Search the full list of all injuries

**Search**

**Results**

234 records have been found

Region	ICD9	Injury Type	SMDCS	Description
Abdomen	159	Illness	AB0042	Abdomen Neoplasm
Abdomen	789	Illness	AB0051	Abdominal Pain / Illness - Misc
Dermatology	686	Illness	DE0556	Acne
Endocrine	253	Illness	EN0255	Acromegaly
Dermatology	702.8	Illness	DE0753	Allergic Reaction (Hives)

**Information**

Side:   Reinjury  Select Event

**OK** **Cancel**

## 5. Hide Form

When a user has multiple notes with the same name on the same date, it is difficult to know which one to hide in case of an error. To help users identify the notes, we have added a column with the form's creation date and time.

The screenshot shows the Athletes Health Management System interface. At the top, there is a navigation bar with 'Home', 'Clubs', 'Teams', 'Players', 'Reports', 'Support', and 'S. Administrator'. Below this is a 'Player Dashboard' for '#6 3B: Abreu, Etanislao - Unable - Non 40 Man Roster'. A red button labeled 'Hide Player Forms' is visible. The main content area displays a list of medical notes, categorized into 'Injuries (7)', 'ITC Notes (9)', 'Diagnostic/Medical Service', 'Impact Notes', 'Injury TUE', 'Medications', and 'Doctor Notes'. A 'Create Date/Time' column is highlighted in green, showing the creation date and time for each note. The notes are sorted by date and time, with the most recent at the top.

	Create Date/Time
<b>Injuries (7)</b>
